

Employee Digital Capabilities and Talent Development

Dr Keyao Li

Research Fellow

Theme 4

2022-03-29

Online hosted by Thailand Productivity Institute (FTPI) and Asian Productivity Organization (APO) Secretariat

Eden was invited as a speaker at the Digital Multi-country Workshop on Talent Development for the Future of Work, which took place on the 29-31 March 2022. Thailand Productivity Institute (FTPI) and Asian Productivity Organization (APO) Secretariat were the implementing organizations. Eden's presentation topic is Employee Digital Capabilities and Talent Development.

During her presentation, Eden introduced the approach of analysing future of work and the MAPNet skill framework from FOWI.

The audience includes policymakers and government officials, representatives of government enterprises, staff of public organizations, and senior members of industry bodies and unions working on labour and employment, human resources development, higher education policy, workforce recruitment and skilling, and other areas related to preparing for the future of work.
