

## Mitin Hirani - Profile Section

Mitin Hirani leads Roy Hill's internal analytics team comprised of Data Scientists and Data Engineers. Since graduating from Imperial College London in 2010, he has spent most of his career in technical consulting roles within the resources sector. His experience ranges from building simulation models of complex mining supply chains through to optimising the production of LNG facilities.

Mitin represents Roy Hill on the Operating Committee and PhD Support Panel. He is an industry supervisor for PhD students on placement at Roy Hill.
