Rachel has provided expert guidance in 'metric design', analytics, research design and program evaluation for various projects. She has implemented human resources reform in the operations teams, including call centres and data processing teams.

Rachel led the technical and conceptual overhaul of a suite of outcome measures that led to high-quality output and substantial resource savings for the Department of Education Employment and Workplace Relations.

Rachel has supported the Centre as the BHP representative on the Operating Committee and PhD Support Panel. She is currently supporting the Centre as an industry mentor.
